

European Distribution Service

Redcliffe offer a consolidated nationwide delivery service in the UK and Europe and have extensive European and International experience. In 2008 Redcliffe became part of the Charles Kendall Group extending our services and reach. We have excellent working partners across the European continent, servicing our requirements for customs formalities and door delivery to the end-users site.

Our Experience

- We have an intimate knowledge of European routings and UK road transportation infrastructures with the ability to consolidate and offer regular “milk-runs” to and from Europe for any industry including explosives in which we hold all necessary licences and permits.
- Own fleet of specialist vehicles from Kangoo vans to 44 tonne EXII Tractor/trailers. Bespoke side loading EX/Section 5 approved vehicles for specialist transportation including explosive cargos which can only be side loaded but still require EXII approved secure vehicle status. We can undertake JIT local deliveries ex magazine/bonded warehouse as required.
- All Drivers are MoD security cleared and §20 trained for German Explosive regulations. Company holds qualification / licences / authorities, trained staff/ drivers etc. We have vehicles which are compliant with French regulations on explosives transport with satellite tracking, panic buttons and door sensors.
- Commencing in 2005, Redcliffe was awarded a contract for road transportation of foodstuffs ex Northern Europe to the UK. Annually we have re-tendered and to date we have retained the contract and transported many hundreds of trailers.
- Numerous contracts from worldwide supply sources, cross trades into Africa, USA, Canada, Europe, Romania, India, Far East, Cyprus, Turkey, Saudi Arabia and the whole of the Middle East, all modes of transportation, road, sea and air.
- To meet the demands of Aid Support due to severe weather conditions and emergency military food requirements, in 2005 and until the present, Redcliffe have worked closely with a “Hot Can” food manufacturer and are arranging seafreight and airfreight movements ex UK and Europe to the USA where the stores are warehoused and packed.
